# THE ART OF HANDCRAFTED STONEWARE

Handcrafting stoneware is a journey that blends artistry and tradition.

It begins at the clay deposits, where our team meticulously selects clays and other minerals. These materials are then refined in our workshop, transforming them into clay bodies with the ideal consistency and composition for stoneware.

Each piece is brought to life by our skilled artisans, whether shaped on the potter's wheel or formed through hand-building techniques. Thoughtful, intricate details, textures, patterns, and designs, are added by hand, making every piece truly one of a kind.

After air-drying, the pieces are bisque-fired to solidify their shape and prepare them for glazing. The final glaze firing, reaching temperatures of up to 1,250°C, vitrifies the clay and reveals its vibrant finish.

Carefully packed to ensure safe transport, each piece carries the spirit of tradition, a fusion of artistry, dedication, and the delicate beauty of handcrafted stoneware.

# PLANTERS

We craft fine artisanal stoneware planters for interior and exterior use. Our pieces are characterized by luxury glazes and highly textural surface patterns.

These surface patterns are the result of hours of detailed manual work, done by expert artisans who hand form and adhere every single component of the pattern to the body of the planter.

By creating fine stoneware gardenware we cater to the makers of exceptional gardens with an appreciation for unique and exquisite plant vessels.
